Road and Sidewalk Program Announced

Some of the plans for local improvement to streets and sidewalks have been shown by the Works and Property committees estimates for 1953. It is apparent that the various projects have been thoroughly considered as benefitting the town as a whole, and merely part of an organized scheme of improvement.

Tentative plans call for 3,850 square feet of sidewalk to be built this year. A master plan for sidewalks has been drawn and this years building will be on trunk walks to which future walks will join in completing an organized system.

The road from second street to West Coleman will be raised and hardtopped, with approximately 400 lineal feet of culvert to be laid. The road from 4th street to 6th street will also be raised and hard topped.

Mrs. J. Rushton Laid To Rest

Mrs. Annie Rushton, 74, passed away on Wednesday, April 15 in the C.N.P. hospital. Deceased was born in June 30th, 1879 at Wingate, County Durham, England and came to Canada in 1935, first living at Vancouver for one year, then coming to Coleman where she resided with her husband Mr. J. M. Rushton. During her residence in Coleman she was well known and was a member of the Anglican faith.

Funeral services were held on Sunday, April 19 at 2 p.m. commencing at the home, the funeral cortege proceeded to the Anglican church for service conducted by the Rev. Padre Harry Moss, D.C.M. Interment was made in Coleman Union Cemetery.

Surviving to mourn her loss are her husband, two step-sons, George at Coleman, and Jack at Trail, B.C.; 3 brothers J. R. Wood, White Rock, B.C.; George and Ned in England; a sister Mrs. L. Proudlock, Vancouver, B.C.; a nephew Ed. Wood, Coleman, B.C.; a niece Elsie Slevet, Vancouver, B.C.; eight grandchildren and one great grandchild.

CARD OF THANKS

We wish to express our appreciation to Dr. Aiello, Hospital staff. Also to the Elks' Patrol Team who acted as Pall Bearers and also to all card and flower tributes received. We also appreciate the assistance given us for the use of cars and assistance given by friends and neighbors, during our bereavement.

Mr. J. M. Rushton,
and family.

Elks, O.O.R.P. Attend Blairmore Joint Function

Approximately 375 to 400 from Fernie, Elks and ladies of the Royal Purple, Coleman Elks and ladies of the Royal Purple, Blairmore Elks, and guests from Fort Macleod attended a get-together at the Elks hall in Blairmore on Saturday, April 18.

Exalted Ruler Frank Vyse, of Blairmore Elks, welcomed the guests, then called on the Coleman Elks Patrol Team to display their floor work, after which the ladies of the Royal Purple from Coleman presented the initiation ceremony then the O.O.R.P. and the clock in drill. Blairmore patrol team followed with drill.

A bountiful buffet lunch was provided followed by a dance to the music of Ed's orchestra. All in attendance reported a good time.

The O.O.R.P. plan to attend district meeting in Lethbridge on May 14, which will be presided over by D.D.S.H.R. Lady MacDonald of Fort Macleod and Nora Goulding, secretary.

Dew or moisture condensing on car at night is especially harmful to the exterior finish according to General Motors research engineers.

FIRE SHOW

The hose laying competition and fire show slated for the opening day of the Back Home Week is reported to be shaping up. Reports to date show that the competitions will be as last year, demonstrations differing to show another phase of fighting fires.

Letters have been mailed to brigades at Blairmore, Frank, Pincher Creek, Fort Macleod, Lethbridge, Taber, Claresholm and Fernie asking that teams be represented from those centres. The local department are still awaiting replies.

Boy Scout Troop Formed Locally

The First Coleman Scout Troop got underway Monday night under the sponsorship of the Lions Club and direction of F. DeCecco, Harold Nelson and Lor Richards. The Scouts are fortunate in having leaders of this caliber. Mr. Nelson and Mr. Richards both former King Scouts.

A group of six boys were invested Monday night, having passed their tenderfoot tests. These boys will serve as patrol leaders and aid in the instruction. The troop is open to all boys between the age of 12 and 16 and offers great opportunities to its members.

Scouting was strong in Coleman a few years ago and considerable equipment was available. Those in charge desire that anyone knowing the whereabouts of this equipment please contact them at the earliest.

INSTITUTION OF
FERNIE LODGE

Officers and members and brother Elks motored to Fernie on March 30 to institute Fernie Lodge of the O.O.R.P. auxiliary of P.O.E. No. 81 Honored Royal Lady Chabillon presided with D.D.S.H.R. Lady MacDonald of Fort Macleod installing the officers. P.D.D.S.H.R. Lady Oberone, now Honored Royal Lady of Ing officer, with Lady Goulding as secretary pro tem. The ceremony was very colorful and the lodge work and the drill work was exemplified in a very outstanding manner. H. R. Lady MacLaren of Fernie presented D.D.S.H.R. Lady MacDonald and P.D.D.S.H.R. Lady Oberone with a corsage on behalf of the lodge for which both ladies gave their thanks and expressing they were honored to be asked to Fernie. H.R. Lady Chabillon presented H. R. Lady MacLaren with a white Bible a gift of our lodge to the Fernie lodge. H. R. Lady MacLaren thanked the Coleman lodge on behalf of her lodge for the lovely gift. A lovely supper was served and enjoyed by all. We travelled back home tired but happy—Historian, Anne Vasek.

An early auto racer, Louis Chevrolet; a famous Indian Chieftain, Pontiac; two pioneer motor car builders, R. E. Olds and David Buick; and an intrepid explorer, Cadac, gave their names to the General Motors line of passenger cars.

Services to commemorate the 50th anniversary of the Frank Slide will be held Wednesday April 29th.

Blairmore Board of Trade act as the co-ordinating body for the event directing the efforts of such organizations as the Blairmore Lions and others. Conscious of the solemnity of the occasion the committee have planned a program honoring the memory of the men, women and children that perished in the tragic event, Blairmore Lions have improved the condition of the grave while the Department of Economic Affairs are erecting a new sign telling the story of the slide. The unveiling of the sign will be performed at the graveside by Ralph Moore Deputy Minister of Economic Affairs, and moved at a later date to the new viewpoint being built by the Highways Department.

The Crows Nest Pass Band and the Coleman Pipe Band will attend the ceremonies, color uniforms added the event by the R.C.M.P. in colorful dress uniforms and the Blairmore 1st Lions Boy Scout Troop. Souvenir 6 page programs have been printed giving the days events and a picture of the slide and Turtle Mountain.

Many residents of Frank at the time of the historic calamity and other old timers of the district are expected to be present and plans include honoring these senior citizens in a reunion at Turtle Mountain playgrounds.

Program For The Day

2.30 Memorial service at the grave
3.00 Civic ceremony unveiling the new sign at the graveside.

Following this there will be a conducted tour of the slide. The tour will come from the west crossing the newly constructed bridge and proceed east over the old road through the slide to Bellevue, then back over the new highway to Turtle Mountain Playground.

4.00 Old Timers reunion at the Turtle mountain Playgrounds

CANADIAN COAL MARKET WILL REMAIN STEADY

A study of Canadian energy sources suggests that the market for coal will remain close to its current level until 1965, then increase sharply during the next 10 years.

The report, by C. L. O'Brian of the Dominion coal board, says its findings sound "a clear warning that coal still remains a vital portion of our energy supply."

The study, presented at the annual meeting in Edmonton of the Canadian Institute of Mining and Metallurgy is patterned on the U.S. Paley report prepared for President Truman on "resources for freedom."

Discounting theories that demand, for coal is receding, the study says that even if the most optimistic predictions for oil and gas production are achieved, the market for coal 12 years from now will be as great as it is today.

At the same time, a proportionately moderate reduction in estimated production figures for oil and gas could lead to increased demand amounting to as much as 17,000,000 additional tons a year.

The study says it took into account "basic assumptions" roughly parallel to those used in the Paley report.

These included the assumption that the population of Canada will increase to 16,500,000 by 1965 and 18,000,000 by 1975; that there will be no general war in that period, that economic growth will continue close to the current level, and that there will be no big energy supply developed

from atomic sources.

The study estimates that fuels needed to supply the energy required in 1965 will be 297,000,000 barrels of oil, 315,000,000 thousand cubic feet of natural gas, 116,200,000 thousand kilowatt hours of hydro electricity, 6,900,000 tons of lignite and sub-bituminous coal, and 37,000,000 tons of bituminous anthracite and coke.

The estimates of 1975 requirements are 356,240,000 barrels of oil, 400,000,000 thousand cubic feet of gas, 158,000,000 thousand k.w.h. of electricity, 8,000,000 tons of lignite and sub-bituminous coal, and 58,000,000 tons of bituminous anthracite and coke.

"If the amounts estimated as possible production for gas and oil are attainable," the report says, "one clear deduction is possible and that is that even with these large increases in other fuels, there still remains a market for coal of about the present size up to 1965 after which the requirement will increase substantially."

"On the other hand, if the supply of oil and gas does not reach these levels, an increasing tonnage of coal and coke will be required. For example, a drop in the estimated oil supply in 1965 to 250,000,000 barrels would mean that 12,000,000 additional tons of coal would be required while a corresponding drop to 250,000,000 thousand cubic feet of gas would correspond to a further 5,000,000 tons of coal."

It said the amounts estimated for gas and oil were "deliberately

1953 Budget Is \$38,000 Clean Up Week May 1 - 15

Deputy Mayor E. Woods and all councillors attended the meet of Coleman Town Council Tuesday, April 14 to clear many matters and accept the budget for 1953.

First business to be dealt with following acceptance of the minutes was the appointment of the chief of police as welfare officer. Following this the council studied the revised regulation from the school board and accepted it. Bylaw 261 restricting and regulating dogs running at large was passed and instructions given that the bylaw be published.

Budget estimates came under discussion again councillor Ramsey reporting on Works and Property stating what works had been planned for this year. Walter Dibble reported on the building committees estimates, Angelo Toppano the finance report and Bert Bond, Parks and cemetery. Acting Mayor Woods read the estimates for police and fire department. The total budget for the year was shown to be set at \$38,000 a little more than last year. Requirements for each department are as follows:

Protection Persons & Prop.	\$5,850
Works and Property	\$18,000
Building	\$4,800
Parks & Cemeteries	\$1,000
Health and Welfare	\$2,550
Contingencies	\$1,000

Further information regarding the viewpoint at the top of Carbondale hill was given at the council meeting. Information given that the department of highways was prepared to do all the work but hoped that the town would be prepared to assist with cut work. It was agreed that the town authorize a sum not to exceed one hundred dollars for this work.

Further road work was discussed with consideration of buying equipment for painting the marker signs on the roads. After consideration it was felt that purchase of the line marker would pay for itself in labor savings.

Spring clean up this year was set for May 1 to 15 and will be carried on in the same manner as last year. Town trucks are prepared to haul all rubbish with in reason as long as it is in containers.

Nurses Institute Refresher Course For Civ. Defence

Twenty five nurses attended the opening lectures of the refresher course to hear Mr. John McDonald director civil defence, Coleman, and Miss Lois Kramer, R.N. nurses' consultant for civil defence in Alberta. In conjunction with lectures, a film was shown by Mr. H. Allen.

Dr. Aiello was speaker the second night, speaking of the newest drugs in use at the present time at the local hospital. Miss H. Clemis, matron, reviewed nursing procedures and treatments which would benefit the ten nurses who will take the practical work of the course. Mrs. E. Bruning demonstrated the Gastric Suction Apparatus.

This is the first refresher course of this nature to be conducted in Alberta in conjunction with civil defence.

Brownies Seeking Coleman's Oldest Man And Woman

Coleman Brownies are endeavouring to locate the oldest man and woman in Coleman in order that they might pay tribute to the senior citizens by means of a party at a later date.

It is felt that the age of 80 would be a good starting point and anyone knowing a man or woman over this age are asked to notify the Brownies so that they may pick the oldest resident. Leave the name and age of the senior citizen that you know at Owen's Red and White as soon as possible.

placed at a high level in order to determine what coal production might be necessary on a minimum level."

In another paper on coal, J. E. Oberholzer, Alberta deputy minister of industries and labor, said "coal will one day return to even greater prominence in Western Canada, both as a source of energy and as a raw material for chemical industries."

"Even if proportionately the use of coal does not increase as rapidly as other types of fuel, the net trend will still be upward. In the field of power production particularly, coal is becoming a preferred fuel... more and more power companies are turning to coal for the production of power from steam plants."

Mrs. D. Robert Dies Following Lengthy Illness

Elizabeth Frye, beloved wife of David Robert passed away in the Crows Nest Municipal hospital on Monday morning following a lengthy illness. Deceased was a resident of Coleman for the past 43 years and leaves a host of friends to mourn her passing. During her life here she was a member of St. Paul's United church and Victoria Rebekah lodge.

Born at Arbroath, Forfarshire, Scotland on Feb. 6, 1888 she migrated to Canada in 1910 settling at Coleman. In 1913 she was married to David Robert at Blairmore.

Surviving to mourn her loss are her husband, two daughters, Mrs. Margaret Simbalist, of Taber and Mrs. Jean Picard of Coleman; 2 grandchildren and three sisters, Mrs. Alex Morency, Blairmore; Mrs. Geo. Ford, Vancouver; Mrs. Roach Oliver of Blairmore.

Funeral services will be conducted from St. Paul's United church at 2 p.m. Thursday, with Rev. A. E. Morrison officiating. Interment will be in Coleman Union Cemetery.

Victoria Rebekah Lodge held their Fraternal service with a large attendance, Sisters L. Fisher, M. Ferguson and H. Gushul conducting the ceremony.

Local Union Office To Be Remodelled

The local office of the U.M.W. A. will undergo extensive alterations to provide for greater relaxation of its members.

W. White, secretary, informed the Journal last week that plans call for the removal of all partitions at the front of the building to make room for a hall measuring 40 by 30. The rear portion of the building will be altered to provide for the secretary's office at the north end and library and reading room adjoining it. This latter room will be for the recreation of members.

"You can't take a dollar away from a man unless he feels the product you give him in exchange is worth more to him than the dollar he gives you."—Charles F. Kettering, research consultant, General Motors Corp.

BOYS' CHOIR TO TOUR BRITISH ISLES WHILE OVERSEAS FOR CORONATION—In new blazers which they will wear to the coronation on June 2 in London, members of famed Appleby college boys' choir at Oakville, Ont., pose for school picture. While overseas, the choir, selected to represent Canada during coronation celebrations, will tour the British Isles, visiting many boys' schools on their travels. Their numerous singing engagements include participation in inaugural banquet for the new lord mayor of Winchester.—Central Press Canadian.

MOST COLORFUL PLAYER—Maurice Richard has been named the National Hockey League's most colorful player in a poll conducted among coaches, sports writers and sportscasters.

"A SHIPLOAD OF SCOTCH"—The twelve members of the Bannan family of Greenock, Scotland, are seen on their arrival in New York aboard the S.S. U.S. Included in the clan, which left the land of bagpipes and heather to emigrate to Toronto, are: Grandson Brian McKay, 3, front; Mary McCrovy and James Towie, both 10, front row; Marie Towie, 12; Veronica Towie, 15, and Pat McCrovy, 16. Second row: Mrs. Elinore McCrovy, Bernard Bannan, Jr., Janet Towie and young Janet, one year, third row; and Mr. and Mrs. Bernard Bannan at top. Seventeen other members of the family are expected to arrive later on, after the Bannans are settled in their new home.—Central Press Canadian.

TO "RIDE" WITH QUEEN IN STATE COACH ON JUNE 2nd—The smoothness of Queen Elizabeth's progress to and from Westminster Abbey during coronation ceremonies will depend on these four men, seen clad in gold and scarlet livery they will wear on June 2. Known as postillions, they will handle the eight grays drawing state coach which has been restored for the occasion. Designed in 1761 by Sir William Chambers, the beautiful and ornate carriage weighs four tons.—Central Press Canadian.

"MANITOBA REMEMBERS", WITH \$150,000 CHEQUE—During a brief stopover in Toronto on a trip east, Mrs. Garnet Coulter of Winnipeg presented a cheque for \$50,000 to Charles LaFerte, honorary secretary of the Canadian National European Flood Relief fund, to bring Manitoba's contributions to \$150,000. "Manitoba remembers," said Mrs. Coulter, honorary secretary of the Manitoba division. "There is such a thing as gratitude, and now that she has been given a chance to prove it, there's more money coming in every day." Contributions are a gesture of appreciation by the people of Manitoba for the financial aid given them when their province was flooded in May of 1950.—Central Press Canadian.

DUKE RENEWS "FRIENDSHIP" WITH CANADIAN GROUP—Wearing combat uniform of a field marshal, the Duke of Edinburgh is seen atop a Centurion tank belonging to the 27th Canadian Infantry brigade during his visit to the British zone of Germany. About 1,000 soldiers, representing all-Canadian units stationed in the Hannover area, were on hand for inspection. As for Prince Philip, he was among friends, having visited the same outfit during his visit to Canada along with Queen Elizabeth during the fall of '51.—Central Press Canadian.

CANADA'S YOUNGEST SERGEANT-MAJOR—At 32 WO1 Herb E. Fournier of the 81st Field Regiment, RCA, stationed at Camp Petawawa, Ont., has the distinction of being the youngest regimental sergeant-major in the Canadian army. A native of Kingston, Ont., Fournier began his military career at the tender age of nine as a boy bugler in the navy and then switched to the army two years later. At 14, he became a full-fledged "boy soldier" in the permanent army as a bugler with the Royal Canadian Horse Artillery. In 1939 when the war broke out he was among the first to be sent overseas. He returned to Canada in 1942 to become an instructor and served in various training centres across the country. His prowess as a crack drill and parade square perfectionist was widespread and in preparing for the royal visit of Princess Elizabeth in 1951, he was selected to train the guard of honor picked from the three services in the city of Winnipeg. Now, Sergeant-Major Fournier will see action once again, as he is headed with his unit to the west coast to sail for Korea.—Central Press Canadian.

LETTERS FROM HOME play an important part in boosting morale among personnel aboard Canada's three destroyers serving in the Korean war theatre. Here a helicopter is pressed into service and lowers a bag of mail to the deck of the destroyer Haida as some of the vessel's crew look on in anticipation.

BETTER THAN THE JEEP?—The military jeep achieved the reputation of travelling over just about any terrain, but here is what is supposed to be an improvement on the jeep. Developed by the U.S. navy, it's called a roligon, and is said to be able to travel over sandy beaches, ice and snow, where a jeep would founder. The secret of its mobility is the size of its pneumatic tires—four feet in width and two feet high.

UNABLE TO CREATE "AN IMPRESSION"—Ten-month-old Linda Davidson seems more interested in the photographer than her uncle, General Alfred M. Gruenther as the North Atlantic pact chief of staff in Paris greeted the tot held by the general's sister, Mrs. Gar Davidson, following his arrival in Washington. In the U.S. on a short visit, General Gruenther told newsmen that supreme Allied headquarters in Europe had reached no decision as to whether the recent MIG-15 attacks on U.S. and British craft were deliberately ordered by the Red high command or whether they were the actions of individual Communist pilots.—Central Press Canadian.

CURRENT BLIND APPEAL NOT AUTHORIZED BY INSTITUTE

The canvassing of funds, purported to be in aid of the blind, which is now being carried on in Alberta, is not being conducted by The Canadian National Institute for the Blind, Mr. R. V. Hewlett, executive officer for the Southern Alberta District of CNIB said today.

Mr. Hewlett said that numerous inquiries have been received at CNIB headquarters during the past few weeks. Throughout Central and Southern Alberta, the CNIB holds its annual campaign in the fall, and it is not at present soliciting funds from the public.

The Canadian National Institute for the Blind is the only service organization in Alberta which has service centres in operation and which is engaged in extending a broad program of services to all blind people regardless of age, race, color or creed. The Alberta Division of The Canadian Council of the Blind, which works in close co-operation with the CNIB, at no time appeals directly to the public for funds.

All citizens are advised by Mr. Hewlett to inquire fully into what they are being asked to support before contributing to any canvass said to be in aid of the blind, regardless of what organization is conducting the appeal.

Odds & Ends

Witnessed perhaps the most heartless act last Sunday morning. Was sitting in the kitchen with Edmond Aboussafy when we heard a dog yelping. Looking out the front window we were in time to see two local boys step from their car, look at the broken body of the pup they had run over, then get back in the car and drive away not caring if the dog lived to suffer for hours or not.

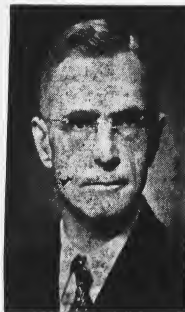

We grant the idea that the dog had no business on the street due to present rules, but we don't agree that anyone should drive off and leave a dog to suffer.

My dog is at my feet sleeping as I type this, sleeping off perhaps his best run since last summer. Taking the hound out is a good excuse for a hike and this Sunday was the ideal day. Along with Mr. and Mrs. Harry Bowman we drove to a sideroad just west of Crownst and let the two hounds go. During the hectic chase we ran across countless other people taking in the finest weather of the year... saw plenty of pussywills and believe it or not on one of the sunny slopes saw the first crocus buds of '53.

Stopping for a rest we sat on the hilltop admiring the scenery when we noticed a foreign sound, then watched as a double unit diesel snaked its long load of boxcars around a curve. It is remarkable the number of cars these units can haul. Impressive as it was it was nice to see the smoke curling up from the valley below and hear the laboring grunts of the steamer we passed above as we returned home. Born and raised among railroaders we feel somewhat the way the liveryman must have when the cars took over.

After a hearty supper and with visions of snow capped mountains, spring in the air and a desire to cap it off properly we started out for an evening drive. Destination was east this time and the result was different. Pot holes and larger holes from Blairmore to Frank changed the impressions of the day considerably and we returned with a headache to type this week's copy to be mailed to the typesetters. When this paragraph is finished we will turn in and try once more to go to sleep to the accompaniment of cars without mufflers... with fancy mufflers, wolf whistles and blaring horns.

Always use cold water in washing your car and never wash it in the direct rays of the hot sun. Always wait until the metal surfaces have cooled before starting to wash the car, General Motors advises.

F. A. Benger, of Montreal, has been appointed chief of motive power and rolling stock for the Canadian Pacific Railway, it is announced by N. R. Crump, vice-president of the C.P.R. A graduate of Queen's University, Mr. Benger has been assistant chief of motive power and rolling stock since 1948, and has had jurisdiction over all branches of mechanical engineering for the railway's diesel and steam locomotives, cars and power plants, as well as supervision over standards and methods. A native of Port Arthur, Ont., he has been with the C.P.R. since 1911. He was largely responsible for the streamlining jobs done on the Canadian Pacific's steam locomotives, including such famous models as the "Royal Hudson" type which hauled the Royal Train in 1939 and the giant "Selkirk", largest steam locomotives in the Commonwealth.

THE COUSIN'S STORY

A History Of The Crows Nest Pass Area

Jim Cousins

Fernie people started rebuilding, for the boom days were still with them and numerous smelters were crying for more and more coke. As the company built new coke ovens to meet the demand the people went ahead and rebuilt the 11 hotels the brewery, the schools, the business blocks and the homes. All new buildings had to be of stone, brick or concrete. Although permits for temporary buildings were granted, the law was strict and these were not allowed to clutter the streets for long. In fact the rebuilding caused a small boom of its own, for the Fernie Brick Co. was turning out 20,000 bricks a day while 250 carloads of cement was brought in. The sawmills up and down the valley were working full blast with a great deal of the lumber being used locally.

Besides opening up Coal Creek which had become a separate community by this time, the C. N.P. Coal Co. had developed properties to the north and south. Carbonado Collieries was opened on Morrissey Creek on a spur of about 4 miles in length in 1902, although development work had started earlier. Morrissey started hopefully and even had a newspaper by 1902, but the opening of the townsite was a disaster to a town of about two dozen houses. Morrissey was a confusing medley of townsites. There was Morrissey at the junction, Morrissey townsite where the coke ovens were built, and Morrissey Mines which was further up. Tonkins was in addition to this. The townsite Tonkin appeared, in which the general manager of the mines had some interest. Lots were sold in competition with the company townsite. At Morrissey Mines there were 25 cottages and two hotels in 1902 and a one room school was opened. The company controlled the issuing of liquor licenses here, but when the townsite was opened in September there were 10 applications for hotel license and all were granted, for a population of about 100. There was only one store, which belonged to the company, and the mines complained about the exorbitant prices. A four room school was ready by the fall of 1903 for the children of the 200 miners employed. A short note in the Fernie newspaper telling of the difficulty of igniting Carbonado coal indicated that Morrissey's life might be short. The mines closed in 1905, reopened in 1907 and finally closed altogether in 1909 because of dangerous workings. Some of the buildings were cut in half and taken to Coal Creek where they still stand. The rest were torn down after being sold for small sums, and the lumber used in houses in the other towns.

The third effort of the C.N.P. Coal Co. at Michel, about 23 miles north of Fernie, has been probably the most successful of all. It started almost immediately after Coal Creek and has produced continuously since 1899. The distance from Fernie was too great to make Michel a feeder for the former town, although the company obviously intended such a plan, and there has always been a quasi independence movement on the part of the Michel-Natal inhabitants, especially as the Michel mines have since 1903 employed more men than Coal Creek.

Being somewhat closer to the Alberta towns, the twin communities have had more to do with them than Fernie. Michel itself has always been a company town and has the character

of such a town today with its rows of identical houses. Twelve of these cottages were built in 1900 and shortly afterwards there was a hotel and a store, all company owned. The coke ovens were built the following year. A school was opened almost immediately, but owing to some dispute, the school board was inactive until about 1902. The town experienced its first mine explosion in January 1904 when 7 men were killed.

HAZELDINE HALL

Hazeldine Hall, "Cuckoo Clock House's" charming hostess, gets good advice while coloring Mr. Easter Egg. Matilda the Cuckoo and a perky Easter bunny are on hand to put in their two cents worth with every stroke of the brush. Miss Hall and the saucy little bird are heard regularly on the lively children's program. Other participants include host Kenny Graham, Lou Snider, Bernie Johnson, Bill Needles and, of course, Basil and Bullfrog. The broadcasts encourage listeners aged eight to twelve to widen their reading range by introducing them to good books. Equal portions of fun, frolic and fine music are mixed in to make "Cuckoo Clock House" a favorite with young listeners to the CBC's Dominion network.

Unsatisfied Judgement Fund

A deficit of \$122,450 has been recorded in the operations of the Unsatisfied Judgement Fund for the fiscal year 1952-1953.

According to the Provincial Secretary's Department, \$292,535 was paid into the fund between April 1, 1952 and March 31, 1953. Total payments during that period were \$315,024, made up of \$51,428 for hospital and medical payments, \$238,843 for court judgments and costs and \$26,952 miscellaneous.

Each owner of a motor vehicle in the province pays \$1 to the fund each year when he buys a new licence and his money is used to pay court judgments arising out of auto accidents for which the responsible party is unable to pay damages.

PIANOS

The Alberta Piano Co., Ltd., Calgary, Alta. offers amazing values in new and refinished pianos ALL CARRYING OUR SERVICE GUARANTEE Prices To Suit Every Pocketbook From \$260. FORD

Thousands of drivers are changing to Ford because they've found that Ford's smooth Strato-Stair 110-Hp. V-8 engine is the type of engine that powers the finest cars, though Ford is priced with the lowest. They've found that Ford offers a choice of three modern transmissions (Fordomatic*, Overdrive* and Synchro-Silent shifting) and an unusually wide selection of styles, colours, interior trims and fabrics. When you add up all the vitally important "extras" that Ford provides—like its smooth "Wonder Ride", its Full Circle Visibility, soft foam rubber seats, Centre-Fill Fueling and Key-Turn Starting—you begin to realize how much more there is to Ford than you ever expected in a car that's priced so low. When Ford gives you so much more...

WHY TAKE LESS THAN THE BEST?

LOCAL AND PERSONAL NEWS ITEMS

Jim Wilkie was a Lethbridge visitor last week.

Mrs. N. Ash and son Allen have returned from a holiday spent at Magrath.

Mr. and Mrs. Kelly Syles of Edmonton, visited at the home of Dr. and Mrs. C. Bryant.

Mr. Geo. McLaughlin, of Vancouver, visited at the home of Mr. and Mrs. C. MacQuarrie enroute from Winnipeg.

The 1st Coleman Brownie Pack sent each patient in the hospital an Easter Card as their "Good Turn" for Easter.

Mrs. Wesley of Vancouver, is the guest of her son and daughter-in-law Mr. and Mrs. C. Wesley.

Mr. and Mrs. C. Anderson of Kimberley, visited their son Mr. and Mrs. Alvin Anderson last weekend.

Louise Crippen, Brownie of Coleman was an Honorable Mention in a recent coloring contest sponsored by The Canadian Guide Magazine.

Paul, James and Wilfred McIsaac of Inverness, Nova Scotia, visited their father John A. McIsaac at the home of C. MacQuarrie. They were en route to Hope, B.C.

Johnnie Hanrahan entertained a number of his friends on April 16 at a dinner party after which the party adjourned to the movies, the occasion being his 10th birthday.

The pipe band, under the supervision of Mr. J. Moore, is re-organized and ready to help entertain at summer functions. Mr. Moore has stated that he has 7 pipers and that the band will appear at the ceremonies at the Frank Slide April 29. Mr. Moore is a very talented man on the pipes, in fact there are few who can compete with him.

WHITE ROSE Service Station and Garage Ph.3601 Coleman

Mr. and Mrs. Alex. Moore left last week to take up residence in Lethbridge.

Mrs. M. Roggiani was a Creston visitor last week.

Mrs. F. Mary and Mr. D. Mary are spending a few weeks with the former's daughter Mrs. S. Pinotti. Returning with them was Mr. and Mrs. Pinotti's daughter, having had an eye operation by Dr. E. H. Johnson, of Calgary. The operation was a complete success.

Sunday evening, April 12, the Couples Club honored the senior members. A solo was rendered by Lewis Jones and a trio comprising Robt. Woods, Roy Burkinshaw and Dr. C. Bryant, rendered several numbers. Percy Dickleson conducted a Bible Quiz which was won by Mrs. E. Maits and Dr. C. Bryant. All present enjoyed a sing song and lunch was served by the club.

The recently organized women's auxiliary of the United church has chosen as its name "the Good Will Women's Auxiliary". A demonstration of pastry making was given by Mrs. M. Ferguson who made a cherry and an apple pie. President V. MacQuarrie thanked Mrs. Ferguson, and presented her with a corsage on behalf of the group. Four new members were welcomed. The next meeting will be May 11 in the club rooms.

The heavy snow fall of last week blighted all hopes of spring, approximately 3 feet of snow fell to give the town the appearance of an arctic settlement. Roads were difficult and various troubles reported from around the lakes. Snow plows and winter equipment had been taken to Fort Macleod shops for the annual repairs, leaving the highway department crew empty handed. Following a few days with clear skies and chnook breezes the snow started to disappear until the increased number of robins and a few twigs turning green again gives the impression that it is once again spring time in the rockies.

Births

Born to Mr. and Mrs. Ewald Zandt, April 5, a daughter.

Born to Mr. and Mrs. Joe Ackerman, April 8, a son.

Born to Mr. and Mrs. Delbert Jahn, April 9, a daughter.

Born to Mr. and Mrs. John Yetuga, April, 12 a son.

Born to Mr. and Mrs. Nick Polski, April 13, a son.

ENGAGEMENT

Mr and Mrs Pawluk announce the engagement of their only daughter Annie to William DeGroot, son of Mr. and Mrs. Pete DeGroot of Coleman. The wedding will take place in October.

Coleman Couple Celebrate Thirtieth Wedding Anniversary

Close friends honored Mr. and Mrs. Joe Dick on the occasion of their 30th wedding anniversary by holding a surprise party in the Catholic hall on Friday, April 10th. During the evening, featuring supper and dancing, the honored couple were the recipients of a chest of silverware from their friends. Father Sullivan paid tribute to Mr. and Mrs. Dick by proposing a toast, to which Mr. Dick replied.

Mr. Dick was born in Austria in May of 1892, coming to Canada in 1911 and to Coleman in 1940 where he was employed at the International mine. He is a member of the Catholic church. His wife, the former Anna Janigo, was born in Czecho-Slovakia on Oct. 13th, 1907, and came to Canada in the same year. She is a member of the Catholic church and the Catholic Womens Lodge. The couple were united in marriage at St. Cyril's church, Bellevue on April 9th, 1923, Father Joseph officiating.

Brownie News

1st Coleman Brownie Pack "B. A." met Wed., April 15 after school, with 10 Brownies in attendance. After opening ceremony and Fairy Gold collection, the Brownies were divided into three groups, all working on different tests. Recently enrolled Brownies, Elaine Benko, Neata Guthrie (of Frank), Marie Yakula and Linda Lowe, learning the three crosses which make up our Union Jack; the Patron Saints of England, Ireland, and Scotland, for whom these crosses are named; and the flower emblems of each of these three countries.

The more advanced Brownies Elsie Hienrichs, Ruth Clark, and Joan Bayon practiced the three essential knots to pass their test, namely: Reef Knot, Round Turn and two half-hitches, and the Sheet Bend.

The Golden Bar group, Dianne Benko, and Barbara Dickleson, using the knots which they have learned, practiced wrapping, tying and addressing parcels. Dianne Benko was feeling sorry for herself, she let her pansies freeze. Try again Dianne! Better luck next time.

After playing a game, passing the "Smile" and singing "Taps" the meeting came to a happy end.

Any girl nearing the age of 8 years, is welcome to join the Brownies, regardless of church affiliations. Brownies are encouraged to attend the Sunday school of their choice.

COME ON GIRLS "IT'S FUN TO BE A BROWNIE"!—Dorothy MacQuarrie (Brown Owl).

Prompt Action Prevents Damage

The brigade was called at 9 a.m. Thursday to a fire at the home of Ted Dreja on third street. As in other instances the brigade was prompt in answering the alarm, preventing the fire from doing much damage.

Chief A. Montalbetti reports that the chimney fire was caused by an overheated heater and that the stirrup and hand pumps were used to extinguish the fire without causing much water damage to the residence.

ENGAGEMENT

Mr. and Mrs. Pete DeGroot announce the engagement of their eldest daughter Elizabeth to Stanley Oslowy, son of the late Mr. Oslowy and Mrs. Helen Sikora of Candiac, Sask. The wedding is to take place on May 24 in the Holy Ghost church in Coleman.

RUBBER STAMPS PROMPT SERVICE THE JOURNAL OFFICE

Engineers at the General Motors Proving Ground make comparative studies of driver vision by a shadow graph technique. 2 small lamp bulbs are installed in the car at the driver's eye position. A light and shadow system cast on the walls of a semi-cylindrical chamber shows the areas which are visible and invisible to each of the driver's eyes separately. Reproduction of the light and shadow areas on a special chart form permits the direct comparison of the clear forward vision of various cars.

The Journal has Model 5 Ramington Rand portables in stock and students who plan on purchasing their own machines to aid in their typing classes can secure one of these beautiful machines without a moment's delay.

Coleman Board of Trade

The Coleman Board of Trade is publishing a 50th Anniversary Book and would like to have some idea of how many to print. If you wish to have a copy please fill in the following and give it to any merchant in Coleman along with 50c for each copy you would like to have. Avoid disappointment and put your order in early.

Prairie Farms Improved By Shelterbelts

Landscaping the Farmstead is an opportunity for all who control the development of farm property says a report from the Experimental Farm at Morden. Among the considerations are—improving the comfort of man, beast and plantations by establishing efficient shelterbelts; increasing family esteem by having neat buildings well painted, a strip of plush lawn, stretches of colorful shrubberies with masses of gay flowers in one or more of its bays; and the satisfaction of owning an area of increasing value due to its general attractiveness.

Shelterbelts are a first consideration in the Northern Great Plains area. A snowtrap hedge or tree row is planted on the north and west. A main shelterbelt of about five rows is set within the snowtrap hedge row at a distance of 60 to 150 feet. One, two or three rows are planted on the south side, and in most cases also on the east boundary of the farmstead area.

The first impression upon travellers driving past the property on the main road, and upon visitors approaching the buildings by the driveway, is of much importance. Attractive fencing, gates, mail box, and a smooth road, clean ditches and neatly groomed lawn, trees and shrubs, impart an atmosphere of happy living and of welcome.

The grounds seen in approaching the house comprise the Public Approach Area. Usually these include the front lawn, the trees and shrubs which frame the house, and the lawn, the foundation of low to medium shrubs, and a flower border in a bay formed by the front shrubbery.

Strategy Produced Results

A pretty girl had a persistent but unavailing suitor. When she refused to see him any longer, he resorted to an intensive mail campaign, sending her a special-delivery letter twice a day for 47 consecutive days. On the forty-eighth his strategy produced results. The girl eloped with the mailman.

Now Many Wear FALSE TEETH With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little **FASTTEETH** on your plates. No cement, resin, sticky taste or feeling. Cheeks "white-odor" (destitute breath). Get **FASTTEETH** at any drug store.

Patterns

TRANSFER DESIGNS IN COLORS

by Alice Brooks

Dutch-treat your kitchen—you'll have the prettiest, warmest, most colorful kitchen in town! No embroidery, just iron these bright blue and sunny yellow motifs on kitchen towels, napkins, tablecloths! So inexpensive—see how many new things, gaily gifts you have ready for special occasions.

Iron-on Washable! Jiffy! Pattern 7091 has 16 transfer motifs. From 58¢ to 1.25 inches.
To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:
Household Arts Department, Prairie Publishers Limited, 60 Front Street W., Toronto. Be sure to write plainly your Name, Address and Pattern Number.

TEN COMPLETE PATTERNS to sew, embroider, crochet—printed in the new 1953 Alice Brooks Needlecraft Book! Plus many more patterns to send for—including ideas for gifts, home accessories, toys, fashions! Send 25 cents now!

The month of March is named for Mars, Roman god of war.

NEW FEATURE

On this page a new feature is being introduced—**Home Workshop**. You may secure patterns especially planned for homemakers. You do not have to know how to read a blueprint to use them. Actual size cutting guides and directions for making that useful thing—coffee tables, wardrobes, screens, storm sash, picnic tables, lawn furniture, bird houses, plywood boats and numerous other articles that will interest the hobbyist. The feature will appear each week with new patterns.

Funny and Otherwise

Card on front window of home.

"Piano for sale."
Card on front window of adjoining home: "Hooray!"

A very elderly professor who had lived alone for many years was thought to be a bit queer. A woman was quite sure of it when, one day, she passed to watch the old man holding a watering can poised above a flower box. At last she called, "Professor, there's no bottom in that watering can!"

"It's quite all right," he assured her. "These are artificial flowers. I'm watering."

The tax assessor's office had to decide on which side of the United States-Canada border an old lady's newly purchased farm lay. Surveyors finally announced that it was just inside the United States border.

The old lady smiled in relief. "I'm no glad to know that," she said. "I've heard that winters in Canada are terribly severe."

Guest—Your little boy pounding nails into the furniture! Isn't that a rather expensive way to play?

Fond parent—Not so much as you'd think. I got the nails wholesale.

Mabel arrived home with an engagement ring on her finger. "What kind of fellow is the man to whom you are engaged?" her father asked.

"Well, he says he had always wanted a home," Mabel explained. "That sounds good."

"And he likes ours very much!"

"Why doesn't baby talk?" inquired the little girl, gazing at her small brother.

"He can't talk yet," replied her father. "Small babies never do."
"Oh, yes, they do," was the quick answer. "Job did. Nurse read to me out of the Bible how Job cursed the day he was born."

A man was approached by an insurance canvasser and asked if he was insured against fire.

"Yes," said the other.
"Burglary?"
"Well, yes."
"Are you insured against floods?"
"Floods," said the other, showing interest at last. "How do you start floods?"

There's a story floating round trade union branches in Lancashire about a union official who had a suspicious wife. On one occasion he stayed out all night "on union business".

He said he had missed the last train and had had to stay the night with one of his members—**all men.**

So his doubting wife found a list of branch members and sent all 250 of them a postcard reading: "Did my husband stay with you last night?"

By return she received 250 replies. They all said: "Yes."

While they were exchanging confidences over coffee the fair-haired girl asked: "What did Horace say when you told him you would be a sister to him?"

"You'd hardly believe it!" replied her companion. "He actually had the nerve to ask me to lend him five dollars so that he could take another girl to the pictures."

Pamela: "Is Bill a popular boy?"

Pat: "Popular? I should say he is! Why, when he left the town 30 girls went back into circulation."

X-RAYS PRESERVE FOOD

Recently-developed "x" rays, radiations produced at a comparatively low voltage, have great ability to penetrate foodstuffs and kill molds, viruses and other organisms that cause spoilage. They are being used to preserve meats, vegetables, fruits and beverages for longer periods of time.

The autogiro was invented by a Spaniard, Juan de la Cierva, in 1922.

TO SUCCEED GOTTWALD AS CZECH PRESIDENT—Premier Antonin Zapotocky regarded as more moderate than some of the Red hierarchy, will succeed the late Klement Gottwald, as president of Czechoslovakia. Chosen for the job by the Czech Communist party's central committee, Zapotocky assumed the presidency immediately after receiving a unanimous vote from the 21 legislators of parliament assembled in Prague. Changes in the government were brought in by the death of Gottwald, who succumbed to an illness officially described as pneumonia and pleurisy soon after returning from Prime Minister Stalin's funeral to Prague.—Central Press Canada.

How Ocean Liner Got Queen's Name

LONDON—One of the stories that now can be told about the late Queen Mary concerns the famous liner which bears her name.

Canard Line directors decided just before the liner was launched Sept. 26, 1934, to continue the tradition then of giving ships names ending in "ia". The ship was to be named "Victoria".

Queen Mary was asked to christen it. Sir Percy Bates, chairman of Canard, went to King George V to tell him the new liner would be named "after one of Britain's most noble queens."

"Oh," said the King. "Her Majesty will be pleased."

Sir Percy kept his silence and the ship was christened "Queen Mary".

ODDITIES In The News

A candy store on a housing estate in Norwich, England, claims to be the last in Britain to use a rationing system. Only polite children who say "please" and "thank you" are served.

Inmates of a model prison for women in Culler, England, are allowed late curling, lipstick and a choice of five colors of linen dresses.

As the mother and father stepped out of the elevator in Memphis, Tenn., five youngsters lined up in back of them. "One," called out the first child, "two" said the second, and so on until all five had counted off. The mother and father never looked back but knew all were accounted for.

When the new high school building in Vermillion, Ohio, was completed, Ann Chadwick, librarian, solved the problem of moving her books from one building to the other by employing the old "bucket brigade" technique. Students lined up between the old and the new libraries and passed the books from hand to hand.

Forty motorists in Hartford, Conn., charged with going through red lights, had something else in common. All were arrested by Officer William M. O'Brien.

When the traffic light turned green, Myron Wilesky of Providence, R.I., started his big truck rolling and immediately hit the rear of a foreign-made sports car. Wilesky told police it was so low-slung he couldn't see it over the high hood of his truck.

A nine-foot python in the zoo at Luenburg, Germany, was fed a live pigeon for his dinner recently. The python refused the offer and the pigeon made no attempt to fly. Now they have become fast friends and sleep with the python coiled gently about the bird.

CANADIAN WOOD USED

Only in recent years have Canadians appreciated the beauty of furniture made from native woods like maple, birch and pine. Europeans were buying Canadian woods to make luxury furniture long before furniture making in this country climbed into the top 10 industries. Scientific research helped bring out the beauty of Canadian woods with improved adhesives, glues and a wide range of stains and varnishes.

Helps You Overcome Itching of Piles

Or Money Back

You do not have to be tortured and embarrassed by the itching soreness and burning pain of piles any longer. Here is real help.

Get a package of Hem-Fold, an internal pile treatment, at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only \$1.50 for the big 40 tablet package. If you are not 100% pleased after using Hem-Fold 2 or 3 days, an act, ask for your money back. Refund agreement by all drug stores.

Wonder Hen "Duplicate" Is Dead -- 462 Eggs In One Year

(By Alan Harvey, CP Staff Writer)

LONDON.—Duplicate is dead. Long live the wonder hen! Prematurely, at 18 months, death came to a Sussex farm to the slate grey bird whose feathered form, feverishly laboring overtime in life, performed prodigies that startled human kind. In Ottawa, a Canadian expert said it just could not be done.

Duplicate's claimed output for one year was 462 eggs—at least eight dozen ahead of any other bird in barnyard history.

The best record Canadian performance is 360 in 365 days, credited to a white leghorn in Galt, Ont. Duplicate had 360 in a mere 156 days. So swift was her production rate that W. E. Maynard, Canada's custodian of egg-laying records, said somebody was being spoofed.

Duplicate's British owners insist everything was on the level. Mr. and Mrs. Wilfred Hutchings, who own the 126-acre farm where Duplicate performed (by fair means or foul) credit their star boarder with these rapid-firing records:

Sixteen eggs in three days.
Ten in 24 hours.
Five in 10 minutes. (Mrs. Hutchings' diary records this took place April 17, 1952, a flush period even for Duplicate.)

Duplicate was a Holland blue. She had gentle eyes, unfluffed manner and nothing to distinguish her from any other bird in the chicken run—until she started laying. At first it was two a day, so they called her Duplicate, but triplicate and other variants soon became more apt.

She reached her peak last summer, then suffered from seasonal slumps.

Helpful Hints

If two safety pins are used they will often prove an excellent substitute for a corkcrew.

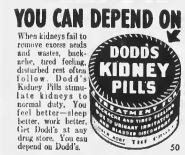

Before adding nuts to foods, brown them slightly in a moderate oven. It will freshen their flavor.

Marble can be cleaned mixing two parts soda, one part pumice and one part salt. Then powder and mix to a paste with water, and scour.

To lighten a wooden floor, use a strong scrubbing powder such as oxalic acid (poison). One pound of oxalic acid crystals to one gallon of water will make a saturated solution. This will cover about 10 square feet of floor. Use an old broom to spread the solution. Give it time to bleach the wood. Mop it up with water containing about 1/2 cup ammonia to a pale.

COCONUT INTACT

VERMILION, Alta. — A 12-inch coconut sent to Vlad Pardey here by a friend who visited Honolulu had passed on its shell a customs declaration saying "to be opened for inspection." But customs men didn't bother to crack it and the coconut arrived intact.

"Really sets you up for the day—"

CROWN BRAND CORN SYRUP

on your breakfast cereal!"

CB-13

Garden Notes

For Amateur Gardeners

FOR THE NEW HOME

When the builder is finished, the gardener is just ready to begin. He shouldn't be discouraged at the rough grading, the litter of plaster and bricks that the builder has barely covered around the brand new home. One can hardly believe what can be accomplished in gardening the first year. Of course we can't grow trees, shrubs and perennial vines overnight. But it is amazing what can be done with annuals. The best plan is to get in early whatever nursery stock and perennial flowers are available and financially possible. Then in between these use all sorts of annuals which will soon look as if they had always been there. There are big, bushy things like cosmos, dahlias, cannas, castor oil and spider plants, ornamental sunflowers or helianthus, African marigolds and giant larkspur that can be used in the place of flowering shrubbery. Then there are quick-growing climbing plants, scarlet runner beans, morning glories, climbing nasturtiums, sweet peas, hops and such for covering trellis or fence. And for solid beds, edging and whatnot we have at least a hundred annual flowers from which to choose.

Before any planting or lawn seeding is done, however, we must dig or cultivate thoroughly, rake as level and as fine as possible. It is also advisable, where available, to dig in some good manure or commercial fertilizer, and all the grass clippings, leaves or other vegetable refuse as available.

MIX IN FLOWERS

Few vegetables look well among the flowers, but there are a lot of flowers that not only decorate a vegetable garden but are best grown there.

Gladioli, sweet peas and others that are used for cutting or bouquets can be grown most easily and in quantity among the vegetables. Plants with really wonderful blooms but plain foliage should go there. A more pleasing sight is given by plants with small flowers, such as the alliums along the edge of the vegetable plot or just in front. If they are very big they can go along the back fence. Usually a prize vegetable garden attracts visitors just as much as the flower plots so if we want to make it really dresy we can select from the seed catalogue some of the taller and bushier annual flowers and use these as hedges between the main divisions of vegetables.

A great many experienced gardeners now grow practically all their gladioli in rows in the vegetable garden. Then, they are more easily cultivated and dusted, and in most parts of Canada it is very necessary to dust to ward off thrips.

TAKE YOUR TIME

Along about this time something in the air makes one want to get outside with a spade or at least a rake and work up the soil. It is a natural urge. The average gardener, however, does not need to worry. He is inclined to rush planting rather than postpone it until too late. Of course with the established things, or the perennials, like shrubbery, trees, peonies, delphiniums, grass, etc., one can start digging just as soon as the soil dries out enough. But for the new crop of annuals which must be planted or sown each spring, it is best to wait until the weather shows signs of settling down and the bulk of the frosts are over for another season. A far more serious mistake than being a bit late is to stop planting too soon. This applies especially to those vegetables which can be sown any time from early April to late in June. By spreading out this work, we also spread out the harvest.

Green Hands

In order to keep the accidents from increasing this year over the past few years, the older employees should take the proper steps in educating the green hands, or new employees.

Whether the man is a new employee or a transfer from another department, they both have one thing in common: unfamiliarity with the job, and an uneasy, uncomfortable feeling. This is natural, as they are in strange surroundings. The people around him are, in many cases, strangers to him, or even unfriendly. Though he may be an old employee to the plant, he is a "New Man" to the "job," and certainly needs some special attention from his Supervisor to help him get adjusted.

Quite often the accident which happens is just shrugged off as one of those things that happen because the man was inexperienced and there is nothing that could have been done to prevent the accident.

You may have neglected, however, to point out to the new man the hazards he might expect to encounter on the job or the possible results to him of unsafe practices. You should try to show him that safety is part of his job and tell him that making good means more than turning out a certain amount of work; that it means turning out the work without accidents.

Show him by your experienced advice and actions that you are earnestly trying to help him get acquainted on his new job.

On The Side: E. V. Durling

Am always reading about contests to determine who can make the best cherry pie. Why cherry pie? What is so difficult about making that? I never made a pie in my life, but lemon meringue pie looks like a tougher proposition to me.

Sidelights

Are you acquainted with an agriculturist who has a flock of geese? Ask him how to tell a male goose from a female. I have been informed this can be easily done, because the male goose always has blue eyes and the female brown eyes. . . . Have just been conversing with a fellow who strongly reminded me of Billy Sunday's observation, namely: "Some people instead of trying to drown their troubles take them out and give them swimming lessons." . . . Now there has been invented a machine that will remove all feathers from a chicken in 14 seconds.

Quotable Quotes

The first automobile manufacturer's slogan of all time was: "Nothing to watch but the road." . . . Of all the countries in the world, Scotland has the highest percentage of happy marriages. . . . It was Lord Chesterfield who said: "Whether it is a question of race horses or men, breeding will tell." Prince Aly Khan, Rita Hayworth's ex-husband, is one of the world's greatest horseplayers. He bets \$5,000 a race, but never wins. Prince Aly always keeps in mind the immortal observation of Damon Runyon: "You can beat a race, but not the races."

Baseball Baffler

How can a batter drive in three runs without hitting a fair ball? This question seems to have baffled some baseball fans who have apparently not familiarized themselves with the rule book. The answer is: "With two out and the bases full, the batter bunts the ball along the third base line. Just as the ball rolls foul, the third baseman throws his glove at the ball and hits it into foul territory—for an automatic triple—which clears the bases.

Silent Partner

Barber Joe E. Ryba of El Centro, Calif., claims to be the world's fastest shaver. He shaved a man in 8.2-10 seconds. The feat was timed by three judges with synchronized watches. Joe challenges any barber in the universe to meet him in a shaving speed contest. I believe Mr. Ryba should receive due credit for this accomplishment of shaving a man in 8.2-10 seconds. However, I think the man who consented to be shaved that fast should also receive some credit. In fact, a man with such courage should get a medal.

DUTCH "DIG OUT" FROM UNDER FLOOD DAMAGE—Queen Juliana is an interested spectator here as a house in flood-stricken little Nieuw Voorn, Holland, is dried out by blowers. The January floods, worst to hit Europe in over 500 years, claimed loss of over 1,856 lives in Holland, England and Belgium, and damage totalling \$265,000,000 in Holland alone. —Central Press Canadian.

Recognized For Outstanding Work

OTTAWA.—They've named a lake after Dr. C. H. Goulden and now they've given him a gold medal. Dr. Goulden, distinguished Canadian grain scientist, recognized as Canada's top civil servant of the year, receiving the 1953 gold medal award of the Professional Institute of Civil Servants.

For years the 55-year-old chief of the federal agriculture department's cereal division labored to fight grain disease and develop new wheat and oats varieties which helped boost Canada's grain production by millions of bushels.

This work, a three-member panel of Canadian university professors announced was "outstanding." It had been "tested and appreciated" by other scientists and had proven of "great material value to Canada as a whole."

The work of Dr. Goulden, raised on a Saskatchewan farm, was recognized by the Saskatchewan government four years ago. They named one of the province's northern lakes after him—Lake Goulden.

Under his supervision, Canada pro-

duced such new wheat varieties as Redman, Regent and Redman and such new oats strains as Vanguard, Exeter, Ajax and Garry.

Forty per cent of Manitoba's acreage is covered with Redman wheat. The province has expanded its Redman wheat acreage by some 44,000,000 bushels in the 1940-50 decade. Dr. Goulden's oats varieties also have been widely used in both Manitoba and Saskatchewan where acreages have expanded over the years.

"The professional institute is indeed proud to have one of its members recognized for his contribution in this field," the institute said in a statement.

WELL EXPLAINED

A Japanese schoolboy's essay: "The banana are great and distinguished fruit. He are on same general architecture as honorable sausage. Difference being, skin of sausage habitually consumed; rappings of banana hardly ever. Banana strict member vegetable kingdom. Affiliation of honorable sausage frequently undetermined."

Paracutin, Mexico's "volcano in a cornfield," has built a cone 1,500 feet high since its birth in 1943.

THIS CURIOUS WORLD

When things are "up to snuff..."

...YOU REALLY MEAN THEY'RE UP TO SNUFF... THAT YOU DON'T "SMELL A RAT..." ACCORDING TO THE ANGLICAN ORIGIN OF THE EXPRESSION.

THE GOLDEN-EYE DUCK IS CALLED "WHISTLER..." BECAUSE OF THE PECULIAR WHISTLING SOUND OF ITS WINGS IN FLIGHT.

QUOTING ODDS COPY, TIME BY NEX SERVICE, INC.

YOU CAN WHISTLE IN THE DARK IN THE LIGHT! Says ETHEL S. HENSLEY, Gillette, Wyoming.

Building "Big League" Wrist Snap

If you are to become a really good batter you must develop skill at "whipping the bat" through with a sudden, powerful flick of the wrist just before you hit the ball, and to perform this "whipping the bat" movement you must develop a powerful, well developed pair of wrists and forearms.

Here's how you can do both these things: First get yourself the heaviest bat you can find. Then, wrap tape around the thick part of the bat until you have made it extra heavy. Now take hold of the bat as you would if getting ready to hit. Hold your bat out in front of you about chest high and start whipping the bat back and forth with a sudden, hard flick of your wrists. Don't move your arms at all. Each time you flick your wrists try to whip the bat faster and with more power. Take a rest when your wrists and forearms get tired. Then do this with one hand and then the other until tired, and finish up by doing it again with two hands on the bat. Repeat this as often as possible.

If you practise this complete stunt every day you won't be long before you will have developed two very important things that will help your hitting a great deal, (1) A pair of strong, well-developed wrists and forearms. (2) Skill at whipping your bat through at the ball with that all-important last second flick of the wrists. If you get the habit of whipping your bat through at the ball in this way and if you develop a strong pair of wrists and forearms you will have made a real stride toward becoming an outstanding hitter. So, take a tip and make sure you include this stunt in your preparation for the coming season.

Early Season Track Running
If you are a jumper or sprinter make sure you avoid running on pavement or ground. By doing a lot of running on very hard surfaces you will take a lot of the bounce out of your legs. Instead, do your running on grass, ground, a cinder track or fairly soft ground. Also be careful to run on even ground because if you run on uneven ground it will be very easy to pull a muscle; an injury that may bother you all year. Remember, stay off the hard pavement and train on level ground.

Get Lean — Stay Lean!

If you have just been on a reducing diet and have come down to the proper weight you must remember that you were overweight because you have the habit of either eating too much or the wrong kind of foods. It will happen again if you return to your old habits. Once you have reduced try to stick to a diet that will keep you healthy and fit—but lean!

Sticking to a diet consisting mainly of protein foods and the low calorie foods will not only keep you free from excess weight but will assure you a proper supply of the healthy foods and help you avoid the foods that cause trouble. Following such a diet pattern now, when young, will mean you will get a habit that will solve your excess weight problem when you retire from active athletic competition.

Have you been intending to join Sports College but have not yet made the play? Have you been intending to send for a supply of registration forms to sign up your friends, team, club or school? Well, if your answer is yes—make a note to make your move today. Remember, membership is free and everyone is eligible to join. To join just send a note to: Sports College, Box 99, Toronto 1, Ontario.

LIVE FISH FLEW INTO HOTEL WINDOW

WORTHING, England. — Guests were startled when a live fish, eight inches long, "flew" through the window into the dining room of a seaside hotel. Dropped by a seagull, the fish was returned to the sea.
